
Kasper Pedersen

Founder & CEO

Kasper Pedersen is founder and Chief Executive Officer of TS NoCode ApS. The company is provider of Europe's technology leading no-code development platform, marketed to small and medium sized businesses under the name TS No-code Platform.

Before founding the company, Kasper worked several years as IT and business consultant for companies like KPMG, PWC and other private companies. After experiencing time and again how expensive and slow moving IT projects can undermine successful business transformation, he decided to realize his dream of replacing traditional programming with dynamic definitions. That was the starting point for development of TS No-code Platform, a so called hybrid no-code development platform. Kasper has led the development and implementation of IT systems within most sectors, including; pharma, healthcare, finance and the public sector.
